

Securing Your Web World

**It's your business,
it's your reputation.**

Protect them both with
Worry-Free™ Business Security
from Trend Micro

Cybercrime is on the increase and it is estimated that no less than one in ten websites is malicious. To stay competitive, you need to go beyond antivirus and catch threats in real time, before they gain access to your computers and threaten both your business data and your business reputation.

That is why you need Trend Micro Worry-Free™ Business Security. It is safer, smarter and simpler so all you have to do is focus on your business.

Trend Micro Worry-Free™ Business Security is different because it offers:

- Safer business – unique web threat protection that blocks exposure to infected websites.
- Smarter security – updates constantly without slowing down your system.
- Simpler to use – requires zero business administration.

It automatically protects digital assets, customer and proprietary data and e-commerce revenue from web threats and conventional threats such as viruses and spam. Trend Micro Worry-Free™ Business Security also runs quietly in the background, without slowing down your computer, leaving you to get on with running your business.
